Education

Institute of Engineering and Rural Technology, Prayagraj <i>Bachelor of Technology in Computer Science and Engineering CGPA: 8.32</i>	Jul 2025
YMCA Centenary School & College, Uttar Pradesh <i>12th Percentage: 94</i>	2021
YMCA Centenary School & College, Uttar Pradesh <i>10th Percentage: 91</i>	2019

Skills

- **Languages:** C, C++, JavaScript
- **Frontend:** React.js, Next.js, HTML, CSS, Tailwind CSS, Bootstrap
- **Backend:** Node.js, Express.js, Next.js API Routes
- **Databases:** MongoDB, MySQL, Firebase
- **Tools:** Git, GitHub, Vercel, VS Code

Experience

KineticDrive Private Limited <i>Full Stack Developer Intern</i>	Nov 2025 – Present <i>Prayagraj</i>
• Developed and deployed features for a production-level Hospital Management System using Next.js, Node.js, and MongoDB. • Built and managed a centralized Admin Dashboard for handling appointments, doctors, tests, and blogs. • Implemented RESTful APIs and Web Push Notifications for real-time updates and seamless data flow. • Integrated WhatsApp Business API (Meta) for automated booking and notification workflows. • Collaborated with team members to test, debug, and deploy features, improving overall system performance and reliability.	

Projects

Hospital Management Web Application Live	2026
• Developed a full-stack healthcare platform using Next.js, Node.js, and MongoDB. • Implemented appointment booking, test scheduling (home + center), and medicine delivery services. • Built a centralized Admin Dashboard to manage appointments, doctors, services, and blogs. • Integrated Web Push Notifications for real-time updates and user engagement.	
EasyGo Cabs (Cab Booking Platform) Live	2026
• Developed a cab booking platform with real-time booking interface and responsive UI. • Integrated WhatsApp Business API (Meta) for automated booking confirmations, authentication, and notifications • Designed backend logic and APIs for efficient booking and user data handling.	
BookNest (MERN Stack Web Application) GitHub Live	Mar 2025
• Built a full-stack web application using MongoDB, Express.js, React.js, and Node.js. • Implemented JWT authentication and role-based access control for secure user access. • Developed an Admin Dashboard with APIs to manage books and users.	

Certificates and Achievements

- GATE 2026 Qualified (CS & IT) – Secured GATE Score 366 and AIR 25131.
- Web Development (Udemy): HTML, CSS, JavaScript [Certificate](#)
- MySQL (Udemy): Database design and SQL queries [Certificate](#)
- Solved 300+ DSA problems on [LeetCode](#) and [GeeksforGeeks](#)
